EUSTA

The image shows the interior of a white utility vehicle, possibly a van or a small truck, with its rear door open. The interior is finished with white panels and features several fluorescent light fixtures on the ceiling. A prominent horizontal metal bar across the top of the cargo area is labeled "4,000 LBS." in black text. Below this bar, the interior is organized with white cabinets and drawers. On the right side, there is a black multi-drawer tool chest. A black ladder is mounted on the left side. A black coiled cable is visible on the right side of the interior. The floor is a light-colored, possibly aluminum or stainless steel, surface. The overall appearance is clean and functional, typical of a service or maintenance vehicle.
