⚠ DANGER

An electrical outlet or any electrical equipment powered with flammable liquid and gases fire, explosion, or asphyxiation is stored or transported within the transportation vehicle. To reduce the risk of fire, explosion, or asphyxiation, the following conditions must be met:

1. Do not store in the vehicle storage area while vehicles are present.
2. Do not store in the vehicle storage area while vehicles are present.
3. Close doors and windows to walls of enclosure if needed when any vehicle is present.
4. Shut off air or oxygen to prevent starting of fuel at the tank.
5. Do not drink, transport, or possess fuel inside the vehicle.
6. When the warning, explosion, or air ventilation signs appear in storage, the transportation area must be evacuated immediately.
7. Do not store any other equipment, gas cylinders, or other equipment inside the vehicle storage area.

FAILURE TO COMPLY COULD RESULT IN AN ACCIDENT, LOSS OF LIFE, EXPLOSION, OR ASPHYXIATION, DEATH, OR SERIOUS INJURY.

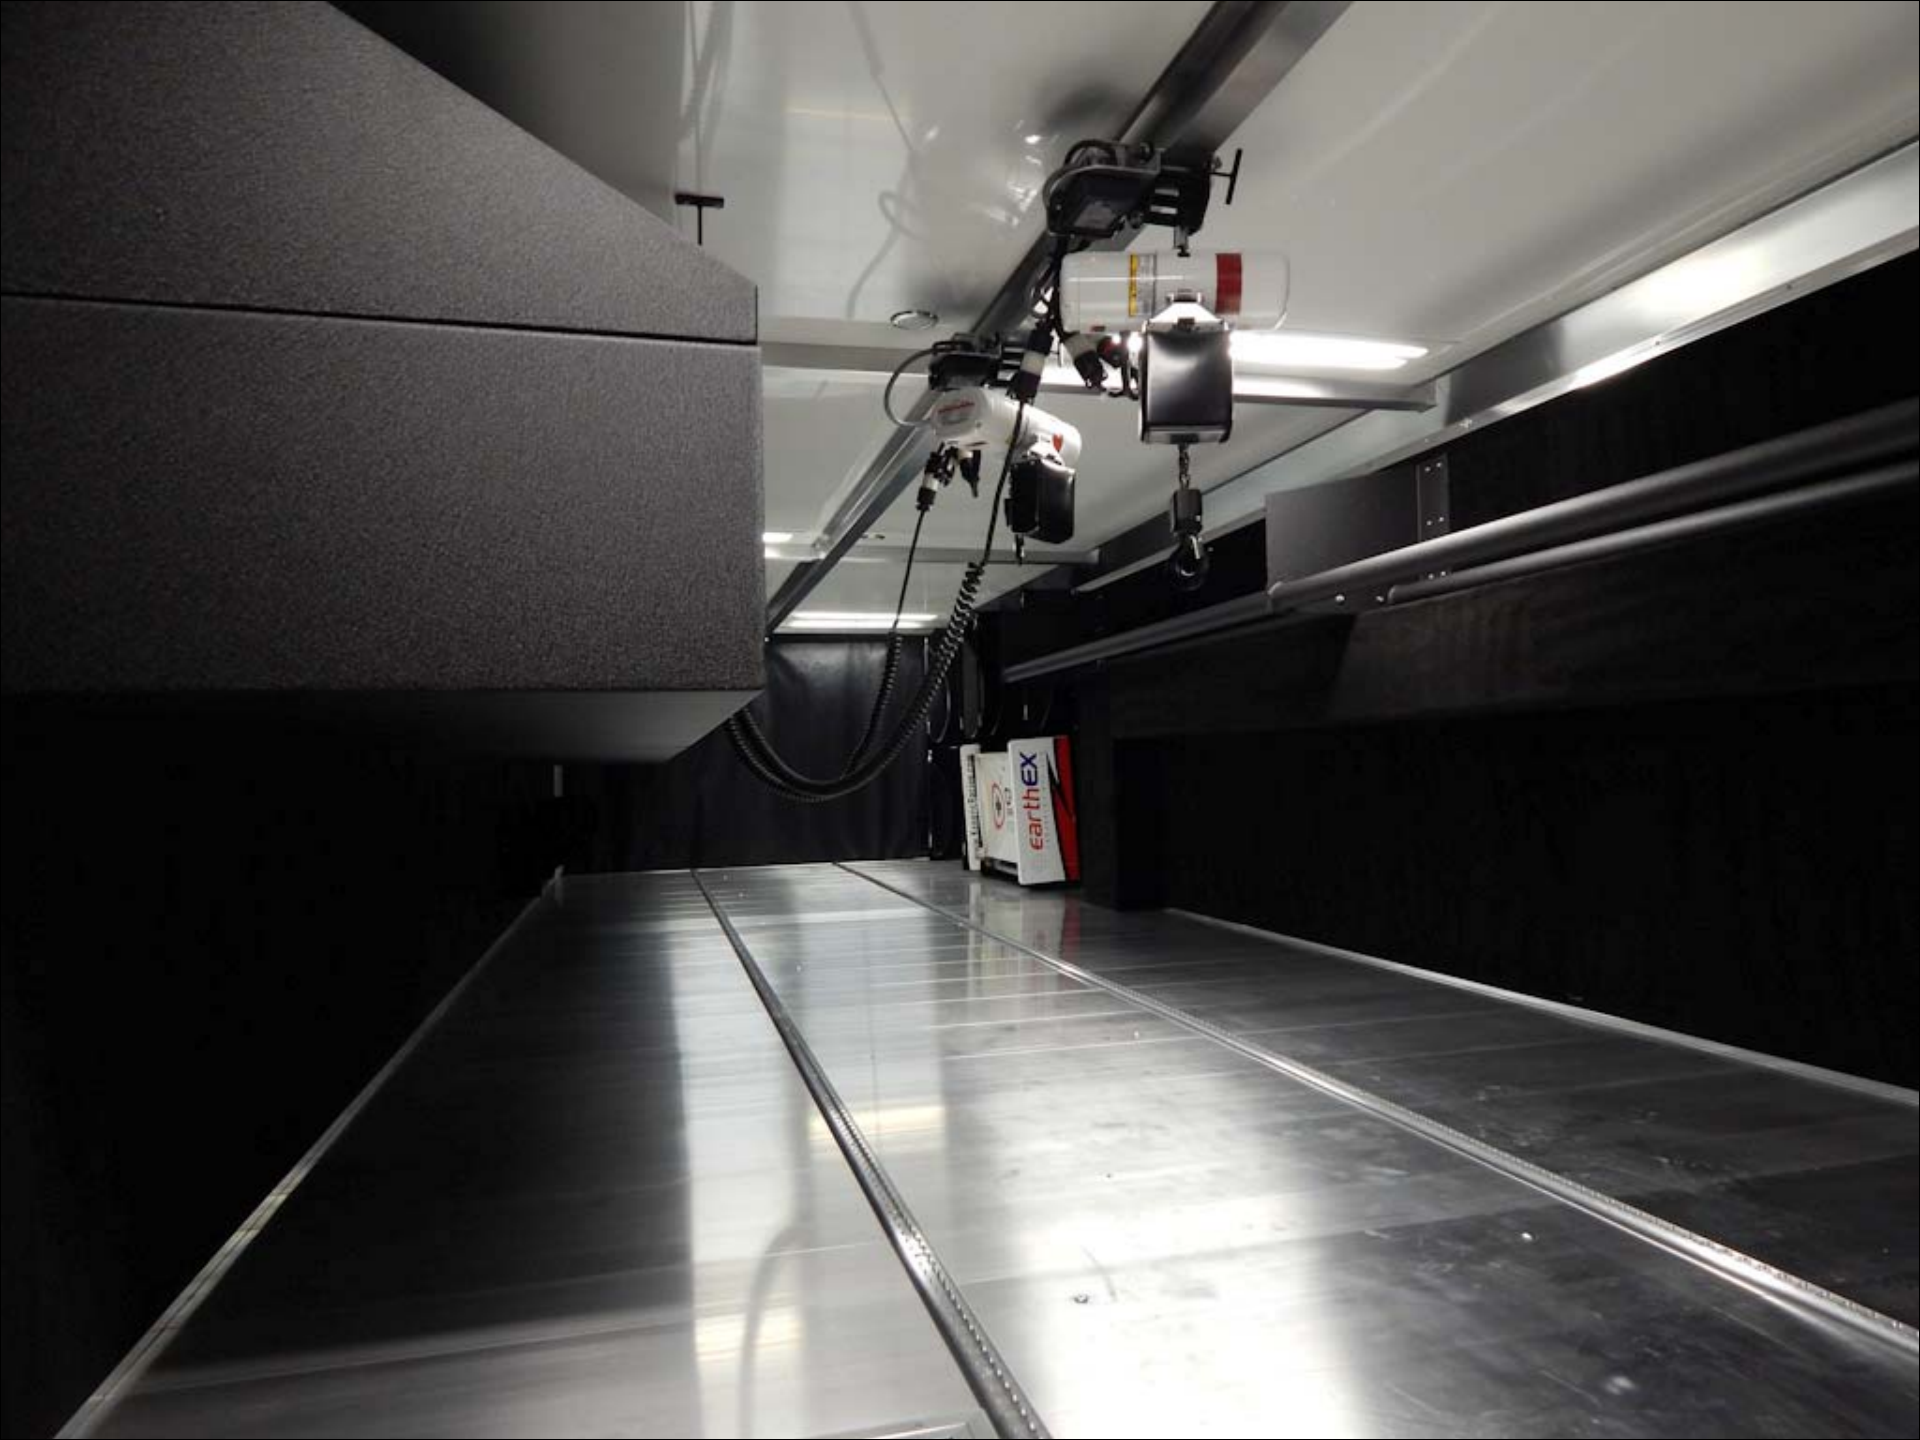

WARNING: This workbench is made of stainless steel. It is not recommended to use this workbench for cutting or grinding operations. The sparks and heat generated during these operations can damage the stainless steel surface and create a fire hazard. Always use proper safety procedures when working with power tools.
