UNLESS LIFT UNIT HAS BEEN SECURED BY SAFETY PINS !**

**DANGER: DO NOT WALK, SIT OR STAND UNDER LIFT
UNLESS LIFT UNIT HAS BEEN SECURED BY SAFETY PINS!**

A large, rectangular, stainless steel lift platform is positioned inside a metal enclosure. The platform is the central focus, extending from the foreground towards the back. It has two square mounting brackets on its top surface. The enclosure walls are made of metal panels, some with perforated sections. On the right side, there is a control panel with a handle. The floor in the foreground is also made of metal and has two circular holes. The lighting is bright, creating reflections on the metal surfaces.
